

in partnership with

If you have a loved one with Alzheimer's, or are caring for someone with AD or a related dementia, there is now a course that will help you learn not just theory but hands-on strategies!

Managing Alzheimer's and Dementia for the Caregiver

This course has been created specifically for the *Caregiver*. You will learn about the various stages of these disorders and be taught:

- Prevention and redirection techniques to help manage difficult behaviors
- Practical, hands-on methods of caregiving and tips for assisting with activities of daily living
- Stress reduction techniques to help manage stress

Saturday, July 14th, 2018 from 9:00am-4:00pm
