The Memory Care Program

Caring for the most vulnerable

PURPOSE:

Residential Plaza's Memory Care Program provides an affordable 24-hour specialized care, based on the Montessori for Aging and Dementia Program, in a home-like environment for adults with Alzheimer's disease and dementia-related disorders.

Guiding Values:

- **Diversity and Inclusion**

We are fair and protect all, regardless of gender, race, religion, ethnicity, or sexual orientation.

- **Respect and Dignity**

We value and cherish our constituents for their unique abilities and qualities.

- **Compassion**

We are responsive to the needs of our constituents.

- **Service Excellence**

We elevate ourselves above the competition; our focus is in meeting our constituents' needs and preferences.

- **Self- Determination**

We are committed to make a positive difference in our community.

- **Innovation and Creativity**

We continually search for new and better ways to serve our constituents.

- **Accountability**

We take responsibility for our actions.

Our residents enjoy living in a home-like environment, surrounded by a safe and caring atmosphere; our personalized approach helps our residents to stay physically and socially engaged, improving their confidence and self-esteem.

All spaces are especially designed to meet the needs of our residents, integrating a home-like environment with person-centered care programming. This specialized environment includes functional kitchens, social gathering areas, and outside spaces where residents can gather and participate in activities. Private living quarters and dining rooms are more spacious, providing an environment in which residents can move and live with ease, comfort, and independence.

Research has provided clear evidence that older adults affected by Alzheimer's and dementia-related disorders experience a decrease in behaviors due to unmet needs and, increase their levels of engagement in activities when Montessori approaches are implemented.

a. Features

- Private accommodations
- Access to telephone, Wi-Fi and cable television
- Emergency generator and fire protection
- ADA accessible
- Montessori environment (signage, colors, etc.)
- Secure floors
- Home-style dining room
